

Dissolvine® GL-47-S

Maximize the performance of your biocide and preservatives

Dissolvine GL-47-S is an important ingredient in formulations providing benefits that enhance the effectiveness of biocides and biological preservatives. Dissolvine GL-47-S is effective on molds and both Gram Positive and Gram Negative bacteria. When you include Dissolvine GL-47-S in the formulations, you can significantly reduce the amount of active needed while preserving efficacy and save on formulation costs.

Species is deprived of multivalent cations weakening the outer surface and more vulnerable for the action of preservatives

Amount of Arquad® MCB-50 needed to obtain 99.9% kill (*Pseudomonas aeruginosa*)

How much can you save today?

Studies performed by a third party laboratory on *Pseudomonas aeruginosa*, *Aspergillus niger* and *Staphylococcus aureus* have demonstrated the following:

- With common preservatives, a savings of up to 30% was typically observed
- With benzoic acid, a savings of up to 90% was possible!
